

CERTIFICATION OF POSSESSION
U.S. Department of Energy
Naval Reactors Program

Retention of the attached list of documents and/or material is requested under (check appropriate block(s) & complete):

P.O. and Prime Contract # - _____ Inquiry and Prime Contract # - _____

until _____ (Date) at which time a revised Certification of Possession OR a Certification of Nonpossession will be submitted. (Identify documents and material by date, type, classification level, category, copy number if any, number of copies, and any other pertinent data.)

Justification for Retention: - (Classified documents may be retained if retention is provided for in the terms of the contract, subcontract, or other agreement or if the retention is necessary to meet obligations imposed by law.)

It is understood and agreed that:

- 1. The listed documents will retain their present classification until downgraded or declassified by the Department of Energy (DOE) and will be safeguarded in accordance with DOE security requirements;
2. Unauthorized disclosure of classified information is subject to criminal penalties, as provided for in the Atomic Energy Act of 1954, as amended, the Espionage Act, and other security directives, and;
3. Any unaccounted-for classified documents or material or exposure of the listed items to unauthorized persons shall immediately be reported to the DOE or the Federal Bureau of Investigation in accordance with DOE security requirements.

All other classified or unclassified naval nuclear propulsion information (U-NNPI) documents and/or material originated or received by the company in connection with work the company performed for the DOE have been returned to authorized representatives of the DOE or have been disposed of in accordance with DOE/DOD security requirements. (See note below)

NOTE: Documents and materials include but are not limited to the following: all handwritten, printed, typed, reproduced, drawn, engraved matter, typewriter ribbons, recordings (voice, sound, magnetic, electromagnetic, or optical), view graphs, photographic slides, negatives, prints, charts, maps, drawings, motion picture film, videotapes, microfilm reels, microfiche, aperture cards, punch cards, automatic data processing software and hardware (application and data), computer input/output media or displays, and documents pending classification review.
